Dear Alumni:

Colleges and universities are not merely institutions of learning. They represent the priceless period in the lives of students who come together for social contacts and academic achievement. We, too, were once students and one day we were given a diploma and instantly became alumni.

Now what? It doesn't seem quite right to neglect ties formed during the best years of our lives. It doesn't need to be that way. That's where your Alumni Association can assist you.

The scope of your alumni association is far-reaching. It is here to help you keep in touch, not only with your alma mater, but with your old friends and classmates as well.

How do we do this? You have noticed in *The Mansfieldian* the many activities we conduct for you each year: Alumni Reunion Weekend, Back-Every-Year Club Dinner, the Alumni Hall of Fame, the golf tournament, homecoming, Winter Weekend, and our spring alumni chapter dinners.

So come and join us and your old friends at any of these special events, but especially during Alumni Weekend and homecoming. They are for you.

Finally, financial support is a large function of our alumni association. The state provides about half of the funds required, and most of the remaining cost of education today cannot be placed entirely on the shoulders of our students. We help these future alumni by enlisting the financial support of the foundations, corporations, parents, employees, trustees and especially our alumni. Your personal support is needed.

Enjoy this new directory and we will hope to see you at one of our events.

Thomas H. Coyle '49  
Mansfield University Alumni  
Association President

# A MESSAGE FROM THE UNIVERSITY

I am pleased that you have subscribed to our new alumni directory. Perhaps you purchased the volume to keep up with the locations of friends. Many of you are trying to find former classmates. Some of us use it as a research tool.

I would like you to think of the alumni directory as a handbook, a tool that you can use for all of these things, but also to help us recruit students.

For our alumni who haven't been able to visit the Mansfield University campus in the past four years, many changes have taken place. We have taken great care not to harm the traditions at MU. The buildings,

the hills which you loved to walk, and the close rapport between faculty and students, have not changed.

However, many things have changed. We have installed a telecommunications system for better service to students, staff and the public. We have added new academic programs to keep pace with the changing career fields. We have initiated programs to scrutinize our existing academic programs and improve them even more.

We have – through the help of our alumni and area business – created more scholarships to help qualified students attend college.

New technology is critical and we have installed a new mainframe computer. We have made computer facilities accessible to all students. All staff offices and residence hall rooms can now be tied in with the mainframe.

The atmosphere in which a person lives and studies is important and we have created an ongoing campus beautification program that has included landscaping, building renovation, direction and identification signs and outside decoration. The students themselves started an ambitious project to develop an outdoor mall where the South Hall parking lot is located.

Yes, we are maintaining our traditions while making changes to keep our university attractive, modern and competitive.

Each year we ask for your financial support to help Mansfield University maintain a large variety of programs. I am now asking you to share the enthusiasm all of us feel for Mansfield University. Read the facts about MU. Look over the programs we offer today.

Please tell people about Mansfield University. Tell college-bound people about the campus and the educational and social experiences you had here. Make them aware of the programs offered.

What better promoter is there than you who have experienced Mansfield and care about it?

On the next few pages you will find some facts about Mansfield and a listing of the programs we offer today. Let others know about them.

I hope you get as much use and enjoyment from the directory as I do.

Rod C. Kelchner  
*President, Mansfield University*

# HOW TO USE THIS DIRECTORY

The 1987 Mansfield University Alumni Directory has been divided into 3 major sections covering all the important areas of our alumni.

**Biographical Section** – This section lists all alumni alphabetically. It shows, when available, the full name, type of degree, class year, advanced degree(s) from Mansfield University with home address and phone number. Married alumnae are listed by their married names and maiden names. All professional data are preceded by a ‡ showing current job title, firm name, address, and phone number.

**Geographical Index** – This section lists the name and class year of alumni by the city in which they live. You will be able to see who lives in your own town and it will be helpful for locating former classmates when you visit a new city.

**Class Year Index** – This section lists all alumni by their class year for their undergraduate work at Mansfield University. Alumni who graduated prior to 1900 are incomplete and therefore have not been included in this directory. Married alumnae are listed by their name at the time of graduation, with their current name in parenthesis. The names of deceased alumni are included in this section and are indicated by a dagger (†). An asterisk (\*) will appear following the names of those persons for whom we have no address information.

**Accuracy** – Complete biographical information has been included for all alumni who completed and returned their updated biographical questionnaire. Non-respondes are listed as maintained in the school files. Those alumni who have asked to be omitted from the directory are not listed. Neither the Publisher nor Mansfield University assumes any liability for incorrect information or unintentional typographical errors. All corrections should be sent to Mansfield University, Alumni Office, Mansfield, PA 16933.
